

Spotlight on the Board is on Recess . .

Indefinitely.

To keep informed on issues affecting District 15 and 211 schools and your property taxes, please visit their respective WebPages where minutes and recaps of Board of Education meetings are posted.

D211 provides detailed summaries of their meetings with links to documents provided to their Board members. At this time, the meetings are not televised.

D15 posts a brief *Summary of Board Actions* after each Regular meeting and these meetings are televised on local cable stations. Citizens can also checkout a DVD to view at their convenience.

However, nothing is better than observing a Board of Education meeting **in person**.

Only there can you “**see**” all seven Board members in action – watch their **faces**, hear the **tone** of their voices and notice their **posture** when others are speaking.

Only there will you be able to “**see**” what they can easily see – presentations from staff, the faces of citizens speaking to them and those in the audience.

Only there will you be able to **make your own decision** as to whether either district is living up to your expectations and . . .

If you go, you are encouraged and welcomed to contribute to the *Spotlight on the Board* archive of notes.
